PROFESSIONAL SUMMARY

Computer Science student at BINUS University with an interest in software development, technology, and problem solving. Experienced in academic projects involving software development, artificial intelligence, databases, algorithms, UI/UX, and web development. Familiar with C/C++, Python, SQL, PHP, JavaScript, HTML, CSS, and related development tools. Experienced in requirements analysis, system design, application development, testing, and project documentation. Currently seeking an internship opportunity to apply technical skills, gain hands-on experience, and contribute to real-world technology projects.

PROJECT EXPERIENCE

AI Food5 — Web-Based Calorie Estimation

- Developed a web-based application for fast food image classification and calorie estimation.
- Integrated a deep learning food classification model into the prediction workflow.
- Contributed to the development of the web application and model integration.
- Technologies: Python, Flask, PyTorch, ResNet34, SQL.

Dapurnusa — Indonesian Recipe Discovery App

- Designed a mobile application prototype for discovering Indonesian recipes.
- Conducted open-ended interviews and usability evaluation to understand user needs.
- Collaborated with the team to refine the interface based on user feedback.
- Tools: Figma, User Research, Interaction Design, Usability Evaluation.

Terrascent — Business & Product Design Project

- Developed a sustainable fragrance brand concept addressing waste from conventional perfume packaging through reusable wooden bottles and eco-friendly refills.
- Conducted customer research, developed user personas and empathy maps, and created product and website prototypes.
- Designed supporting features including personalized scent recommendations, bottle return and loyalty systems, and developed the business model using perceptual mapping and business planning.

EDUCATION

BINUS University

Bachelor of Computer Science.

2024 - Present

SKILLS

- Programming: C/C++, Python, JavaScript, PHP, SQL
- Web Development: HTML, CSS, Laravel, Vue.js, REST API
- Database: MySQL, SQL
- Tools: Figma, Cisco Packet Tracer
- Other: User Research, Usability Evaluation, System Design, Requirements Analysis

ADDITIONAL EXPERIENCE

Core Committee Member — General Secretary, F2WL 2024 (From 2 With Love)

- Supported event administration and documentation.
- Coordinated meetings and communication between divisions.
- Contributed to the organization of an annual performing arts and bazaar event.

CERTIFICATIONS

Certificate of Excellence — Databases for Developers: Foundations

Completed database fundamentals and SQL training through Oracle Dev Gym.
